PROJECTS

QuickChat – Real-Time Chat Application

Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.io

- Developed a real-time full-stack chat application using the MERN stack and Socket.io .
- Implemented user authentication, live messaging, and room-based communication.
- Designed responsive frontend interfaces using React.js and CSS.
- Integrated WebSocket-based event-driven communication for low-latency messaging.
- Built REST APIs for authentication and chat management.

ORGANISATIONS

Incognito Club

Vice President — Conducted sessions on AI tools and emerging technologies.
